### School Philosophy

The Secondary School will follow the same basic principals as the Primary School, that being; to provide an environment to educate the whole person intellectually, morally, physically, and spiritually . The school will be grounded on the Christian faith and will seek to prepare young boys and girls to: recognize goodness; contribute to society; practice tolerance towards others, and strengthen family and community bonds. Whilst striving for academic excellence, the school believes that education and active participation in the arts and athletics is an integral part of the individual's learning experience and wholesome development as a human
